

# Creativity Intensives

with Donna J. Bauman

## Unleashing Your Creativity

An interactive creative experience designed to lead you into the discovery and exploration of the power of your unique expression.

Full or Half Day  
Individual Intensives

Beginning

January 2012

Creativity, rather than being the gift of only a few individuals, is the natural innate core of each of us. This reservoir of imagination is always available to us as we live our daily lives. However, we are rarely given the support, the encouragement, and the opportunity to tap into this richest part of ourselves. Once we discover the effortless power of living from our creativity, we find new ways to live with purpose and dedication to making a difference!

### Through this creativity experience you will:

- Discover, explore and reclaim your own creative abilities
- Overcome your resistance and blocks to creativity
- Discover your unique gifts and how to express them creatively
- Apply your creative abilities toward fulfilling your own career, relationship and personal goals
- Receive personal support and assistance to facilitate your creative process.
