The emphasis of this two day weekend experience is to explore the male and female aspects of your feminine self and to integrate them into the powerful woman that you are.

It is an opportunity to leave any gender based myths behind and to remember that you ARE what you DECIDE you are!

It is an invitation to stop doubting your potential and live the fullness of your integrated feminine self.

Each weekend is limited to 12 women. With this limited number of participants each person will receive a great deal of individualized help, as well as the opportunity to have the support of other women who are motivated to live in an integrated place of wholeness.
